## -Feeding Directions-

Feed as a complete feed to pigs weighing 15-35 pounds.

**WARNING:** Withdraw 2 days before slaughter.

**WARNING:** This product, which contains added copper, should not be fed to sheep or related species that have a low tolerance to copper.

**LIMITATIONS:** Feed continuously as sole ration on premises with a history of swine dysentery but where signs of disease have not yet occurred or following approved treatment of disease.

**CAUTION:** Do not feed to animals other than swine. Use as the only source of Tiamulin. The effects of Tiamulin on swine reproductive performance, pregnancy, and lactation have not been determined. Swine being treated with Tiamulin should not have access to feeds containing polyether ionophores (e.g., Monensin, Lasalocid, Narasin, Salinomycin and Semduramicin) as adverse reactions may occur. If signs of toxicity occur, discontinue use of medication.

**SPECIAL CONSIDERATION:** Protect medicated feeds from excessive temperatures. Do not store at warm temperatures, 104°F for more than 7 days.
