FEEDING DIRECTIONS

This product is formulated for self-feeding to all classes of goats on pasture.

Provide one container for every 10 – 20 head. A minimum of two (2) containers may be required in each pasture to ensure proper accessibility. Typical intake will vary depending on the size of the livestock being fed and the amount and quality of other available feedstuffs. Goats may consume 2 to 3 ounces per head per daily. Intake may be increased by offering more containers and decreased by reducing the number of containers available. Provide a source of clean, fresh water and free choice salt.

CAUTION: USE ONLY AS DIRECTED: Consumption of selenium should not exceed 0.7 mg per head daily.

Net Weight: 33.3 lb. (15.12 kg)
