INGREDIENTS

Processed grain by-products, plant protein products, grain products, forage products, cane molasses, calcium carbonate, salt, vitamin A acetate, D-activated animal sterol (source of vitamin D3), vitamin E supplement, sodium selenite, manganese sulfate, zinc sulfate, ferrous sulfate, copper sulfate, ethylenediamine dihydriodide, cobalt carbonate.

FEEDING DIRECTIONS

For a one day treatment, feed 1.0 pound per 250 pounds of body weight. (Example: 1,000 lb. cow, feed 4 lbs.) This will provide 2.27 mg of fenbendazole per pound of body weight. Feed only for one day. No prior withdrawal of feed or water is necessary. Under conditions of continued exposure to parasites, retreatment may be needed after 4-6 weeks. Consult your veterinarian for assistance in the diagnosis, treatment and control of parasitism.

WARNING: Feed as the sole ration for one day. Do not use within 13 days of slaughter.
